## 1. Workshop Proposals

As none of the four educational workshops were granted support, EXCOM discussed the conditions that qualify for PAGES support and that these should be clarified in the website/proposal form. It was agreed that:
(1) it must be clear what the event is trying to teach,
(2) the event must be integrative (international, interdisciplinary) in the PAGES spirit,
(3) it must be clear that PAGES support goes only to people who could not come otherwise.

2. PAGES Working Groups

The EXCOM approved the following PAGES Working Group proposals, subject to meeting specific conditions:
