1. PAGES ECN at AGU fall meeting 2018

The PAGES Early-Career Network will be present at the [AGU fall meeting](#) in Washington DC, USA, 10-14 December 2018. Save the date in your schedule for the two events:

- **PAGES ECN: perspectives on open data practices** (Thursday, 13 December 2018; 12.30-13.30): Town hall session
- **The PAGES Early-Career Network** (Wednesday, 12 December 2018; 13:40-18:00): Early-Career Scientist Networks and Organizations Poster session

The poster features a background of a blue and white network diagram with nodes and connecting lines. At the top, the title 'PAGES Early-Career Network at AGU fall meeting 2018' is written in a large, bold, black font. Below the title, there are two white rectangular boxes with black text. The first box contains the text 'PAGES ECN: perspectives on open data practices', 'Town hall session: Thursday, 13 December 2018; 12.30-13.30', and 'Marriott Marquis-Liberty M'. The second box contains 'The PAGES Early-Career Network', 'Early Career Scientist Networks and Organizations Poster session', and 'Wednesday, 12 December 2018; 13:40-18:00, Hall A-C (Poster Hall)'. In the bottom right corner, there is a logo for 'PAGES EARLY-CAREER NETWORK' with a blue circular icon containing a white arrow pointing right.

2. The Early Pages Blog

Last month on The Early Pages

Many studies from the Northern Hemisphere show that a sudden cooling of the climate happened 8,200 years ago - this is known as the 8.2 ka event. However, have you ever wondered what happened in the Southern Hemisphere? Check out Ignacio Jara's post to learn a bit about [ocean currents, teleconnections and what things look like in the south!](#)

Stay tuned for our upcoming posts about how diatoms can be used to explore socio-ecological systems in the Andean Mountains, about how ancient people impacted the Amazon rainforest, about using desert springs to explore ancient pluvial lakes, and other exciting posts such as work-life balance, and life outside academia.
