EDITORIAL

77 Sustaining Earth's biodiversity
Peter Gell and Lindsey Gillson

SCIENCE HIGHLIGHTS: SUSTAINING EARTH'S BIODIVERSITY

- 78 Paleo records as a guide for ecosystem management and biodiversity conservation
Daniele Colombaroli, C. Whitlock, W. Tinner and M. Conedera
- 80 Entangled ecosystem-people-animal interactions: perspectives from the savannas
Rob Marchant, C.C. Mustaphi and E. Githumbi
- 82 Paleoeology as a guide to landscape conservation and restoration in the Gran Sabana
Valentí Rull, T. Vegas-Vilarrúbia and E. Montoya
- 84 Legacies of Pre-Columbian land use on Latin American ecosystem
Bronwen S. Whitney and Macarena L. Cárdenas
- 86 Using Paleoeology to understand natural ecological character in Ramsar wetlands
Peter A. Gell
- 88 The importance of paleoeology in the conservation and restoration of landscapes
Anneli Ekblom and Lindsey Gillson
- 90 Geogenomics - integrating geology and phylogenetics
Sherilyn C. Fritz and Paul A. Baker
- 92 Integrating paleoeology and phylogeography reveals congruent regions
Marie-Pierre Ledru, A.C. Carnaval, C.Y. Miyaki and "AF Biota" project participants
- 94 What do we mean by regime shift? Extrinsic and intrinsic forcing in paleoecological data
Alistair W.R. Seddon
- 96 The big data revolution and paleoeology
Sandy P. Harrison

MINI SECTION: PAGES' YOUNG SCIENTISTS MEETING 2017

- 98 Reports from PAGES' Young Scientists Meeting 2017
- 99 Early-career paleoscientists meet in the mountains of Aragon
- 100 Science communication methods and strategies for paleoscientists
- 101 Communicating the relevance of paleo research in the current societal environment
- 102 Is it important to create a PAGES early-career scientists working group?
- 103 No professorship: There is a normal, non-scary life outside academia
- 104 What should the research questions and priorities in paleoscience be?
- 105 Strategies in highlighting paleo research
- 106 Insight about funding, communication and data sharing for early-career scientists
- 107 The PAGES Football Cup 2017

WORKSHOP REPORTS

- 108 Global Challenges for our Common Future: a Paleoscience Perspective
- 109 Integrated initiative on extreme events and risk assessment
- 110 Understanding the climate of the past 2000 years: Phase 3 of the PAGES 2k Network
- 111 Hydroclimate patterns of the past 2000 years with paleo- $\delta^{18}\text{O}$ and δD records
- 112 Summer temperature and drought co-variability
- 113 Overcoming reductionism when linking climate variability with human history
- 114 Central and Eastern Europe paleoscience symposium: From local to global
- 115 Fire regime and land-cover changes in Central and Eastern Europe
- 116 Lessons learnt from paleoscience on a possible 1.5-2°C warmer world in the future
- 117 Towards a marine synthesis of late Pliocene climate variability
- 118 Spatial pattern and temporal evolution of glacial terminations of the last 800 ka
- 119 Proxy System modeling and data assimilation in paleosciences
- 120 Measuring resistance, recovery and resilience in long-term ecological datasets
- 121 Towards global land-cover and land-use reconstructions over the Holocene
- 122 Pollen-based reconstructions of past land-cover change in Latin America
- 123 Past land-cover change for climate modeling: data from Eastern Asia
- 124 Paleolimnological puzzles, databases and aquatic transitions
- 125 A global soil and sediment transfers database for the Anthropocene
- 126 Effort to enhance paleoclimatic research in South Asia
- 127 Coevolution of climate, demography and food systems in North and South America
- 128 Scales and scaling in past climate data
