Kull and Ginot:

ACKNOWLEDGEMENTS:

We would like to thank the drilling team of the Department of Chemistry (University of Bern) and the Paul Scherrer Institute (Villigen) in Switzerland, Jorge Quinteros (Dirección General de Aguas, Chile), Alvaro Giannini (Universidad de Chile, Santiago), Benjamin Zweifel (ETH Zürich) for their

contribution to the fieldwork. The help of Martin Grosjean and Heinz Veit (University of Bern) and Andres Rivera (Universidad de Chile, Santiago) in organizing our expedition as well as the active support of H.P. Erismann, Swiss ambassador in Santiago de Chile, is highly acknowledged. Appreciation is expressed to the Chilean Army (Regimiento de Infantería No 21 "Arica") for the support of the fieldwork, to Swisscargo for transporting the ice samples and to the Aargauer Zentralmolkerei for storing the ice. This work was carried out in the framework of the Swiss National Science Foundation, Projects 21-50854.97 and 21-50854.99.
