Scientific Partnership between the World Climate Research Programme (WCRP) and the Past Global Changes (PAGES) Project

AMENDMENT to the

Scientific Partnership between the World Climate Research Programme (WCRP) and the Past Global Changes (PAGES) Project

WCRP and PAGES Project have concluded a Scientific Partnership agreement on October 2014 to develop activities of mutual interest focused on enhancement of climate and paleoclimate research.

WCRP and PAGES Project now agree to amend clause 7 of this agreement as follows:

7. Term and right of termination

This Partnership will enter into force once it is signed by the Parties and endorsed by the WCRP JSC and PAGES SSC, and be valid for 3 years. The Parties may mutually agree in writing to extend the Term of this Partnership under the same terms and conditions as recited herein. No amendment or modification of this Partnership will be valid unless made in writing and signed by duly authorized representatives of WCRP and PAGES Project. WCRP and PAGES Project further acknowledge that facsimile signatures are fully binding and constitute a legal method of executing this Partnership.

If either Party desires to terminate this Partnership prematurely, it should submit a justification in writing to the other Party at least 3 months in advance. Upon receipt of such letter both Parties will work together to plan the way forward.
