

Dear all!

Please find attached a preliminary program for our General Workshop 2017 in Zaragoza. The goal of the workshop is that we work together (in groups) on “products” from the first 3 years of the working group, (e.g. maps, manuscript drafts, databases, etc), i.e. discuss and start prepare material for publication in journals and on websites. We will therefore use day 2 for these activities. On the day 1 we’ll concentrate on updates from subgroups and individuals, and on planning the work sessions of day 2. A work session on day 1 will be devoted to discussion of the plans for the second period of LandCover6k (2018-2020), and it will be discussed in plenum at the end of the workshop on day 2.

As it has been the case for earlier LandCover6k workshops, our budget is limited. The PAGES grant we got for this workshop will cover the costs from the main coordinators and subgroup coordinators as much as possible. If necessary I shall use some my own grants to cover these costs. Therefore, I shall be grateful if you can cover all or part of your costs (travel and/or accommodation) as much as you can, in particular if you are traveling within Europe.

Arrival is on Monday May 15th. Those who wish will meet at a restaurant in the evening (costs not covered by the PAGES grant)

On May 16th everyone is invited to the workshop Dinner.

On May 17th the dinner is optional (costs not covered by PAGES).

For most of the participants departure will be on May 18th.

Lunch on May 16th and 17th will be arranged at the workshop venue and will be covered by the PAGES grant

Please, prepare ppt presentations and/or posters on the results you would like to present as a background to the work we’ll perform together on May 17th

Comments and suggestions on the preliminary program are welcome. It would also be useful if you already know on what project (map, article, database, other) you would like to work with on day 2, and with whom you would like to work/exchange/etc.

Please send you REGISTRATION (see page 2) to Anna-Kari Trondman (anna-kari.trondman@lnu.se)
