

TICK TOCK: INTO THE GEOLOGIC CLOCK

JOSE DOMINICK GIBALLA, DEBORAH TANGLUNAN,
RICHARD JASON ANTONIO & JESSE JOSE NOGOT

THEN, ARE YOU READY TO TRAVEL BACK TO ANY TIME IN THE EARTH'S PAST?

YES, IT WILL BE MILLIONS OF YEARS BACK! WAY, WAY BACK!

HUH!?!?

BEING SUCKED UP BY THE WORMHOLE,
SHE CAN SEE THE WHOLE WEST SIDE OF
NORTH AMERICA FROM ABOVE.

A LARGE VOLCANIC EVENT IS HAPPENING
IN THE NORTHWEST UNITED STATES!

THIS ERUPTION, THE COLUMBIA RIVER
BASALTS, COULD HAVE RELEASED HUGE
AMOUNTS OF GASES INTO THE
ATMOSPHERE!

THE INCREASE OF THESE GASES, LIKE
CARBON DIOXIDE, MAY HAVE RESULTED
IN HIGH TEMPERATURES DURING THE
MIDDLE MIocene CLIMATIC OPTIMUM.

BUT THIS COULD BE JUST ONE OF THE
MANY FACTORS... INTERESTING!

WOAH! THAT WAS
AMAZING!

NEVER THOUGHT I
COULD TRAVEL BACK
TO 16 MILLION YEARS
IN LESS THAN A
MINUTE!

THE GEOLOGIC
CLOCK SURE KNOWS
HOW TO WARP!
