

PAGES ECN Newsletter - December 2022

Dear colleagues,

We made it! In this final newsletter of 2022, we wish you a very happy holidays! Keep an eye out in 2023 for new ECN activities and ways to get involved. You can always contact pages.ecn@gmail.com or activity clusters, directly, if you'd like to get involved.

In this newsletter we highlight news especially relevant to ECRs. If you find other announcements that should be shared with the ECN, please feel free to send it directly to the mailing list (pages.ecn.pages@lists.unibe.ch) and/or to the Steering Committee (pages.ecn@gmail.com) for inclusion in the monthly newsletter. Thanks!

Best wishes,
The PAGES ECN Steering Committee

1. Webinar announcements

- 1a. Recent PAGES ECN webinar recording now available on YouTube
- 1b. PAGES ECN North America presents: "Research Show and Tell"

2. PAGES ECN events at AGU

3. Welcome to new PAGES ECN RRs

4. Upcoming events and conferences

1. ECN webinar announcements

If you have ideas for a webinar and want to organize it for the PAGES ECN, please reach out to the webinar cluster: webinar.pages.ecn@gmail.com. Please also refer to the PAGES calendar for a more complete listing of PAGES webinars and other webinars of interest: <http://pastglobalchanges.org/calendar/upcoming>

1a. Recent PAGES ECN webinar recording now available on YouTube

Irka Hajdas (ETH Zurich, UMCS) presented an overview of the services that radiocarbon laboratories can provide. Think beyond sending samples for dating and waiting for the date to return; many radiocarbon labs can help you in deciding the best dating strategies for your samples and detect possible pitfalls in advance. On top of that, many laboratories provide additional services or discounts for ECRs. The recording of the webinar is now available on the PAGES ECN [YouTube channel](#).

1b. PAGES ECN North America presents: "Research Show and Tell"

The next Show and Tell event will feature Cecilia Cordero Oviedo and her work on pollen and non-biological proxies in the Canadian wetlands. The event is scheduled for **Tuesday, 17 January 2023 at 1:00 EDT (17:00 UTC)**. Please see the announcement on the PAGES ECN listserv for the Zoom link to the event.

Whether it is a tour of a laboratory setup, walkthrough of a favorite method, unboxing of freshly collected samples, or activities in the field, these events are designed to give us a break from traditional zoom slide presentations and get to know the faces and places behind the screens. Recordings of previous events are available on our [YouTube channel](#).

2. PAGES ECN events at AGU

If you are attending the AGU Fall Meeting next week, we have compiled a [list of PAGES- and ECN-related presentations/sessions](#). Thank you to those who shared this information. You may have interest in attending your PAGES colleagues' presentations during the conference. There will also be an in-person meet-up announced on the listserv as soon as the location is determined; for more details on this, please email Georgy Falster georgina.falster@anu.edu.au. Additional ECR-related events at AGU2022, and suggested itinerary, can be found [here](#).
